Nature Enriched Storage Garden

by
gamlaa

OUR NEST

Our nest is a modular and standard storage container garden in which Gamlaa provides the end to end solution for container garden thus enhancing the biophilic environment around work desk and other areas.

YOUR NEST

Your nest is a modular and standard storage container garden in which plant solutions are provided by gamlaa where as the outer interior is provided by the client for storage containers thus enhancing the biophilic environment around work desk and other areas .

NEST

CONTAINER GARDEN

Container gardens for storage are something biophilia accessible to your workplace. Storage space container gardens come in a variety of plants that fall into the exotic/premium/classic category.

Self-watering storage container gardens aid in the preservation of plant development and freshness.

The bushiness and foliage of plants, as well as a container garden with tall plants, enhance the entire interior of the confined area.
